

Professional Billing Services

By Payment Automation Network, Inc.

Eliminate the frustration monthly billing and invoicing with our automated professional billing service and document delivery service from Payment Automation Network. Our professional billing service will free up your time and save you money.

Let us do the work for YOU!

- No more stuffing envelopes
- No more trips to the post office
- No more address labels
- No more hassle!

All of this while **REDUCING** your current cost outlay for document delivery and saving valuable manpower expenses!

How Much Does It Cost?

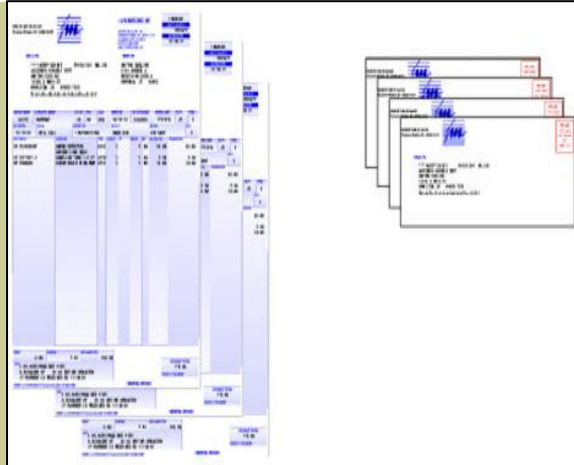

Our pricing depends on the number of invoices to be processed. A small service fee per invoice is typical. The good news is **there are no minimums or maximums** to worry about.

Our service will bill you monthly for doing your invoicing based on the number of accounts, the frequency and the complexity of your billing, etc. We will do a free cost analysis based on the needs of your business.

We will go over exactly what your business needs, so we can establish a level of service. There is no cost or obligation to you. We will show you how to save money, save time and improve your cash flow.

A Harvard Business School study shows that the average small business spends \$5-\$10.00 to produce a single invoice. This is overhead that cuts into your profits.

Why would anyone need a Professional Billing Service?

Tired of late nights handwriting or typing invoices? Had enough of tracking receivables and staying on top of slow paying accounts? Interested in improving your cash flow and image?

Maybe someone convinced you that computerizing your business would cut costs. The idea of saving money by using a computer to help run your business sounds good, but it may not quite work that way.

Having someone outside your company do your billing can save you money, time and the aggravation of trying to do it yourself. Your business may be a perfect candidate for a Professional Billing Service.

What are the benefits of hiring a Professional Billing Service?

1. Better Control Over Slow Payment.

Our reports will let you know immediately who is slow in paying, how much they owe and how long they have owed. In addition, we can follow up with collection letters at your request.

2. Improved Billing Accuracy.

When billing doesn't get accomplished on time, it is often rushed out, changes are overlooked, money falls through the cracks and you don't get paid for services rendered. This is LOST money!

3. Consistent Repeat Marketing.

Our on-time billing service can market other goods and services your business offers. Enclosed right along with your bill each month, we can help produce a promotional stuffer.

4. Reduced Overhead Costs.

You may be managing to get your billing done. But what is the cost of lagging cash flow? How much does poor image cost? How much gets "Written off"? And how much do you lose each month just because the correct amount isn't billed?
